NEW **I-175XL2**  
EJECTOR

**DESIGNED FOR CONTRACTORS WITH LARGE TRACTORS & MEDIUM SIZED DOZERS, THESE EARTHMOVERS ARE INDUSTRIAL FROM THE FRONT HITCH TO THE REAR PUSHBAR**

- You won't be slowed down unclogging wet sticky material from this scraper. Elevated heavy front cross beams and thick trailing arms provide superior ejection ability - no matter what the conditions.
- Heavy loads? No problem! The lift cylinders are positioned to provide fast blade reaction. This translates to bigger, speedier loads with less stress.
- Large rear 29.5 x 25 tires provide you with superior flotation.
- Sick of machines that fall apart? With heavy duty welding an Ashland Earthmover won't let you down!
- Looking to get it done FAST? Quick blade action allows for quicker loading resulting in faster production for you!
