EJECTOR

**IDEAL FOR HIGH HORSEPOWER  
RUBBER-TRACK OR WHEELED POWER UNITS**

- Reduce downtime! The rugged and simple design includes trunion-style lift cylinders and large tapered trailing arms. Creating less stress while operating or being pushed by a dozer.
- Put your material where you want it. The 56" (142 cm.) apron opening provides easier loading and unloading in a wide range of materials.
- Bigger is Better! With fast blade reaction you can maintain higher RPM's and load bigger loads faster.
- Tired of tow cables? The rear pushbar extension keeps your machine moving and helps to get the job done.
- Need to Double your Production? Safe and easy tandem hookup with heavy duty rear hitch.
