CARRY ALL"**

the
ALL
NEW **CS18HD**

Carry All

HEAVY DUTY

BUILT TO STAND THE TEST OF TIME

- The CS18HD has raised the bar. Where most Carry All's top out at 18,500 lbs., the CS18HD tips the scales at 25,000 lbs. - That's HEAVY DUTY!
- Sick of getting stuck? The standard 23.5 x 25 E3/L3 12 ply tires and lowered ground pressure allow you excellent flotation.
- Move more dirt with less power! With 22" of clearance between the front section and the ground you won't have to deal with the build-up and dragging of loose material by the front section.
 - Heavy framework, big pins, and large cylinders. This machine was built to do the job you need it to do.

18 cu. yd. - 325+ HP tractors
